

System Mechanic® Business

Everything You Need to Fix, Speed Up, and Repair Your Office PCs

- Fix and prevent PC issues that slow down business productivity
- Avoids the costs of unnecessary PC replacement
- Patented ActiveCare® Technology automates PC maintenance
- Network installation with centralized maintenance profiles
- Proprietary technology for maximum speed, power & stability

System Mechanic Business is the network-enabled version of System Mechanic — the industry's leading and award-winning, all-in-one PC performance optimization, maintenance and repair solution. Using the Network Deployment Manager (NDM), the fully-automated performance-tuning capabilities of System Mechanic Business can be quickly and easily pushed out to all the workstations in your office environment — ensuring that every PC on your network is automatically optimized and maintained throughout the day.

Consistently recognized as the most effective performance-boosting program of its kind by PC Magazine, Windows IT Pro, and other leading experts and independent labs, System Mechanic Business offers an all-inclusive solution to the myriad of problems that result in PC slowdowns, freezes, and crashes. Its uniquely comprehensive approach to computer optimization and repair makes System Mechanic the ultimate in performance-tuning software for PCs.

Overview of Key Features

Network Installation

Configure our patented **ActiveCare®** technology to run behind the scenes and perform automated maintenance for all of the PCs on your network.

- Deploy the software to endpoints over-the-network using a single push
- Configure the initial **ActiveCare®** settings for PCs on the network
- Manage all PCs with a central license management system
- Update **ActiveCare®** settings periodically as needed

Boosts Speed & Cleans Up Clutter

PCs slow down over time due to everyday use. Simple tasks that used to take minutes now feel like they take hours.

- **Startup Optimizer™** accelerates boot time up to eight hundred percent
- **Program Accelerator™** turbocharges program speeds
- **Memory Mechanic®** tunes RAM for ultimate performance
- **Internet Cleanup** clears web clutter and boosts online speeds up to 300%
- **CRUDD Remover™** eliminates system drag by pinpointing programs that tax your system

Repairs Problems

With normal everyday use, PCs can accumulate problems that cause annoying errors, crashes, and freezes.

- **PC Repair Wizard** resolves problems and stabilizes Windows
- **Drive Medic™** fixes hard drive errors to protect your data from corruption and loss
- **Disaster Recovery Tools** save the day if your PC won't start
- **Internet Connection Repair™** fixes faulty connections and optimizes for peak speeds

Plugs Security Holes

Security flaws that an antivirus overlooks let hackers gain access to your PC, resulting in financial damage and data loss.

- **Security Optimizer™** finds and plugs security holes antivirus products miss
- **System Guard™** blocks unauthorized startup programs and configuration changes
- **Registry Backup** lets you roll back to a safe state if Windows is corrupted
- **Tune-Up Definitions™** warn you about any dangerous programs on your networks' computers

Accolades for System Mechanic & System Mechanic Business

Reviews

"With System Mechanic Business, small organizations can speed up and clean up users' PCs without blowing their IT budget." – **Windows IT Pro Editors' Choice**

"It digs deep, cleans up PCs well, and offers informative, easy-to-understand help about the problems that plague computers...After using iolo System Mechanic 10, the system saw the most improved performance of all the tune-up utilities tested...[System Mechanic 10] is our new PC tune-up utility champ. Bottom line: The latest version of iolo's PC tune-up utility is a must have for well-used computers." – **PC Magazine Editor's Choice and Best Product of 2010, 2011 and 2012 PCMag.com**
